Is your company  
 making the difference  
 for the children  
 of tomorrow?

## Foundation Zonneglossis

*'Since everything in life is connected, including people, it is obvious that we bear a responsibility for each other.'*

It is with this thought that 'The Peace Carpet' came into existence. In the end, everyone wants peace, right? How nice it would be if everyone could express this thought and illustrate it on a piece of cloth.

Since 2007, the carpet has united young and old. More than 2000 people including artists have cooperated on this project.

With the purchase of the carpet you can help support the work of War Child and thus contribute a small bit of peace in the world.

25% Of the profit will go to the non-profit Zonneglossis Foundation for future projects.

Astrid Engels for War Child

Did you know that the Peace Carpet is 100 meters long?

Each section is about 1.20 x 1.50 meters. It is a unique and significant jewel for any wall.

Will you make a world of difference in the life of war children through the purchase of this Peace Carpet for War Child?

In that case, please contact Peace Foundation Zonneglossis now!

War is no place for a child. Never! Yet millions of children are victims of the violence of war, abuse and neglect. War Child helps these children to regain their self-confidence, to express themselves, be happy, to make contact with others so that their inner conflict can cease and they can again play, dream, laugh, and grow like a normal child and become the person they want to be, a strong adult without violence, in peace.

The peace carpet has been a way for people to contribute their bit to peace. It is very special to see how the carpet has grown in the past few years. It consists of more than one hundred meters of creativity, drive and thoughts of peace. Each in his own way.

Everyone has the same goal: Peace for Everyone. And that fits well with the mission of War Child. How wonderful that you can help us with this project.

Judith Bouwman, Project Coordinator War Child
